

E-WASTE COLLECTION PROGRAM

JOIN US
NOW

WHY?

E-waste are electronic devices and gadgets nearing or at the end of its useful life. E-waste is not biodegradable, and therefore accumulates wherever it is dumped. Over time, any greenhouse gases contained within the e-waste will slowly be released into the atmosphere.

According to theroundup.org, there is at least 347.18 million metric tonnes of unrecycled e-waste on earth, becoming the world's most quickly growing waste source. Sadly, only 17.4% of e-waste is known to be collected and properly recycled.

WHAT DO WE OFFER?

At PepNet, we are very passionate about sustainability and have integrated this philosophy into our business activities, we would like to encourage you to participate with us in our commitment to the environment by offering a *free e-waste disposal*.

Accepted Items

Mobiles, Tablets/iPads, Computers, Laptops, Monitors, Keyboards, Mouse, Printers, Fax Machines, DVD/CD players and their related accessories such as cables, chargers.

WHAT CAN YOU DO?

You can reduce the amount of e-waste you produce along with its environmental impact by being more mindful of where it ends up.

Go to our website to book a drop off to our office for small or book a collection for any large disposals.
